Date of next meeting – 30 November 2022

FINANCE AND RES	OURCES COMMITTEE				
Date of Meeting	5 October 2022				
Paper Title	Estates, Capital Expenditure and Masterplan Update				
Action For discussion Prepared by Janet Themson, Vice Principal Resources and College					
Prepared by	Janet Thomson, Vice Principal Resources and College Development				
Agenda Item	22.43, 22.43A, 22.43B				
Status	Disclosable				

1. PURPOSE OF THE REPORT

The purpose of this report is to provide a summary of the main current estates matters for Glasgow Clyde College as an update on the capital projects progress against plan for 2021/22, 2022/23 and future years. Two update papers are attached with the first one being for 2021/22 and the second one is for 2022/23 and future years.

2. ACTION FOR THE COMMITTEE

2.1 Committee Members are invited to discuss this paper.

3. BRIEF BACKGROUND INFORMATION

The College's major Capital works are based on the College Capital Masterplan, the College Estates Condition Survey information for all the College buildings, plus College plans for addressing emerging needs in discussion with Estates, and the Faculties and Units.

3.1 **2021/22 CAPITAL PLAN**

- 3.1.1 The capital funding allocation to the College for 2021/22 was £2.82M from SFC/GCRB, split into £881k of lifecycle maintenance and £1.94M of high priority maintenance and the capital plan for 2021/22 is for the use of the high priority maintenance funding element.
- 3.1.2 The capital plan for 2021/22 was based on estimated costs for priority needs based on discussions and an informed survey of the sites together with any brought forward remaining works.
- 3.1.3 Capital works for 2021/22 have been progressed with the project manager

team at Doig and Smith and with the tight timescale for projects' completion being worked to by all involved with projects prioritized accordingly. The first of the two papers attached to this report is the update showing the expenditure for 2021/22 through to July against the capital plan for the period. In summary all of the works for the 2021/22 capital plan use of SFC/GCRB funding are completed by end July.

3.1.4 In addition to the above for the main SFC/GCRB capital allocation the College undertook the Student Space project at Anniesland which was funded from the additional SFC/GCRB estates capital allocation in 2020/21 to support economic recovery. The College received £403k of this funding for high priority maintenance and £196k for lifecycle maintenance. This project has been progressing on site since Autumn 2021 and completed by the end of June 2022. As can be seen from the attached update this project overspent against total and that funding will be transferred to meet these costs.

3.2 COLLEGE CAPITAL PLAN FOR 2022/23 AND FUTURE YEARS

- 3.2.1 The College's SFC/GCRB capital funding allocation for 2022/23 is £3.036M of capital allocation, which is split into £946k of lifecycle maintenance and £2.089M of high priority maintenance.
- 3.2.2 The College are working with Doig & Smith, the appointed project manager team to progress all but one of the projects in the capital plan for 2022/23, who were previously appointed for a two-year period following a tender process. The College's capital plan from 2022/23 onwards was prepared based on the recent College Estates Condition Survey, which was completed in 2021 for all the College buildings, and preparatory work already undertaken by Doig and Smith on a number of known urgent projects, combined with judgement and knowledge of projects which need to be prioritized to address emerging needs for the College.
- 3.2.3 The Condition Survey 2021 which was completed by the Oakleaf Group indicated £9.9M of estates works to be completed (with the breakdown being £3.2M at the Anniesland campus, £4.7M at the Cardonald campus, and £2.0M at the Langside campus) over the five-year period. These figures exclude VAT and professional fees hence the total figure based on the survey would be over £13M.
- 3.2.4 Following on from the above assessment there are fifteen priority areas to be progressed within the College's capital plans and the capital masterplan for 2022/23. The plans for 2022/23 are being worked upon in partnership with Doig and Smith who have a team progressing them. Fortnightly progress

discussions with the College are taking place and the majority of works are about to go to tender shortly.

- 3.2.5 In addition, there are further projects for future years planned and as approved at the June 2022 Board of Management. These are outline timings and this stage and the identified works which need to be completed which may be able to be phased slightly later are shown in year 2 of the plan i.e. 2023/24. More work will be undertaken to further populate year 2 and beyond for the College's capital plan and this will be done with the campus Building Coordinators and the Head of Estates, Facilities and Energy.
- 3.2.6 The total capital masterplan figure as attached for 2022/23 is £2.465M which is higher than the indicative funding amount of £2.089M and the College will prioritise projects during the year based on available funding and on the actual value of the projects. All of the figures in the plan are estimates at this stage and updated figures will be used in future updates of the plan values once projects are progressed.
- 3.2.7 In addition to the SFC/GCRB related capital projects for 2022/23 and future years there are two projects which are related to GCEF funding, and these are included at the bottom of the attached 2022/23 and future years capital masterplan summary. These two GCEF projects are the Cardonald Public Realm project which is largely now completed and the College Learning Spaces project which is intended to be progressed through 2022/23 to 2023/24 which is anticipated to be in phases during the period. An update on the progress on this project to date is included within the GCEF paper 22.48 later in the Committee agenda.

4. RISKS

4.1 There is a risk that if the estates planned works are not progressed annually then the College estate will not be fit-for-purpose.

5. ANY OTHER SIGNIFICANT IMPACT e.g. STUDENT EXPERIENCE/ LEGAL/ FINANCIAL IMPLICATIONS/EQUALITY AND DIVERSITY

5.1 There are no legal implications from this paper and the capital financial implications are captured above and in the College capital masterplan. Estates changes will take account of benefits to the student experience and any equality and diversity matters.

Glasgow Clyde College Capital Masterplan 2021/22 as at 27 September 2022

FINANCE AND RESOURCES COMMITTEE

Date of Meeting	5 October 2022
Paper Title	Key Performance Indicators – Committee Monitoring
Action	For discussion
Prepared by	Janet Thomson, Vice Principal Resources & College
	Development
Agenda Item	22.44, 22,44A
Status	Disclosable

1 PURPOSE OF THE REPORT

1.1 The purpose of this report is to provide Committee members with an update on the set of previously agreed Committee Monitoring Key Performance Indicators. These KPIs will continue to be reported to the Committee on an on-going basis.

2 **ACTION FOR THE COMMITTEE**

2.1 The Committee is requested to discuss the Finance and Resources Committee Monitoring KPIs and decide whether any of them should be reported to the Board of Management at its October meeting as a matter of note or concern.

3 BRIEF BACKGROUND INFORMATION

- 3.1 At the Board of Management development event in September 2021, there was a discussion on the role of the Board of Management's Committees in monitoring Key Performance Indicators. It was agreed that the Committees would monitor an agreed set of Key Performance Indicators at each meeting and report by exception any of those which should be highlighted to the next meeting of the Board of Management.
- 3.2 The Finance and Resources KPIs were supported by the Committee and an update on these is included in the attached annex 22.44A as at the end of the fourth quarter 2021/22. These show the latest information as monitored on a quarterly or annual basis, compared to target and compared to the previous periods as available. A red, amber, green indicator system is on the KPI table as an indicator of performance level assessed against target.

4 SUPPORTING DOCUMENTATION/ FURTHER INFORMATION

4.1 The list of Finance and Resources KPIs is to be reported to allow committee members to review the performance of the College and an overview of the approach for each KPI is given below under each of the four KPI indicator category headings of financial performance, teaching and training delivery contract fulfilment, resource utilisation, and sustainability and recycling. These have been reported on in the attached annex 22.44A.

4.2 Financial Performance Indicators

Each of the agreed financial performance indicators is listed below showing the basis of the information for the indicator.

Financial Performance Indicators	Basis of Information
Forecast/Actual annual operating position	This is the forecast full year's surplus/ (deficit) position which is reported to each Committee and now included in KPI table
Number of days' expenditure fundable by cash balances	This is the cash balance at the end of each quarter divided by the College estimated daily business cash requirements. As the College is mainly funded by the Scottish Funding Council and this is a monthly funding drawdown process this has a relatively low base level
Forecast percentage total income from non-SFC sources	This is all the non-funding council income as a percentage and as well as commercial income includes other areas e.g. external funded income, catering income, nursery income
Commercial income and contribution level against target	This previously proposed KPI has been split into two separate KPIs to show commercial income as the first and commercial contribution as the second on the grid

4.3 Contract Fulfilment Performance Indicators

Each of the previously proposed contract fulfilment performance indicators is listed below showing the basis of the information for the indicator.

Contract Fulfilment (for Teaching	Basis of Information
Delivery Performance Indicators	
Percentage delivery against SFC	This indicates performance against
Credit target	the Scottish Funding Council's credits (i.e. measure of teaching hours delivery) target. For the 2021/22 year this target is 129,328 credits of delivery. This information is available directly from the College Student Records System so can be monitored by staff in real time.
Number of MA starts (college	This shows the number of Modern
managing agent) against target	Apprenticeships against target where the College manages the delivery through offered places from Skills Development Scotland (SDS)
Number of FA starts against target	This shows the number of Foundation Apprenticeships against target which are part of a Regional arrangement and are now part of overall credits activity having previously been controlled by SDS
FWDF income against target	This shows the level of Flexible
	Workforce Development Fund against target. These funds come from SFC.

4.4 Resource Utilisation Performance Indicators

There are three proposed resource utilisation performance indicators which are lecturer utilisation, assessor utilisation and room utilisation. As previously indicated these are to be developed so the KPI lines have been included in the grid however these are not available yet.

4.5 Sustainability and Recycling Performance Indicators

Each of the previously proposed sustainability and recycling performance indicators is listed below showing the basis of the information for the indicator.

Sustainability and Recycling Performance Indicators	Basis of Information							
Tonnes of CO2 emissions	This is the measure of the College Carbon Dioxide equivalent emissions which is done through a conversion factor against a range of areas. The biggest areas by far are electricity and gas consumption.							
Volume of paper consumed	This has not been measured as such to date. This information has been requested from our paper supplier.							
Number of print copies (both mono and colour	This information is provided quarterly by our photocopier/printer supplier.							
Tonnes of waste generated	This is measured by the volume of waste uplifted.							

5 RISKS

The proposed model of KPI reporting for the College and the Board of Management is intended to act as a mitigation measure to reduce the likelihood and impact of any key risks.

6 ANY OTHER SIGNIFICANT IMPACT e.g. STUDENT EXPERIENCE/ LEGAL / FINANCIAL/ EQUALITY& DIVERSITY

There are no significant impacts from this report however it should enable the Committee to monitor these key indicators as previously discussed and to escalate any related matters to the Board of Management.

Key Perfomance Indicator	Reporting to Committee	Target	2017/18	2018/19	2019/20	2020/21	Quarter 1 2021/22	Quarter 2 2021/22
FINANCIAL PERFORMANCE								
Forecast/Actual annual operating financial position surplus/ (deficit)	Quarterly	Breakeven normally. Budget for 2021/22 was deficit of £450k	£125k	£107k	£267k	£571k	(£438k)	(£1,204k)
Number of days' expenditure fundable by cash balances	Quarterly	20 days	22	23	43	62	30	60 (note 1)
Forecast percentage total income from non-SFC sources	Annually	20.2% in 2021/22 budget (note 2)	26.8%	23.3%	22.4%	22.8%	N/A	N/A
Commercial income (incl. FWDF) against target	Quarterly	£2.25M income in 2021/22	£1.9M	£2.4M	£1.9M	£1.7M	£702k	£1,419k
Commercial contribution level to overhead against target after all costs	Quarterly	£400k contribution in 2021/22	£445k	£680k	£248k	£250k	£281k	£553k
CONTRACT FULFILLMENT (FOR TEACHING	DELIVERY)							
Percentage delivery against SFC Credit targets	Quarterly	SFC credits target	101.0%	100.6%	100.9%	98.5%	94.5%	94.89% (note 3)
Number of MA starts against target (where college is managing agent)	Quarterly	132 in 2021/22	98	107	112	123	22	79
Number of FA starts against target	Quarterly	114 in 2021/22	TBC	TBC	398	208	133	117
FWDF ytd income against target	Quarterly	£600k in 2021/22	£247k	£421k	£438k	£434k	£109k	£360k
RESOURCE UTILISATION								
Lecturer utilisation level	Quarterly	To be developed	Not avail	Not avail	Not avail	Not avail	Not avail	Not avail
Assessor utilisation level	Quarterly	To be developed	Not avail	Not avail	Not avail	Not avail	Not avail	Not avail
Room utilisation level	Annually	To be developed	Not avail	Not avail	Not avail	Not avail	Not avail	Not avail
Tonnes of CO2 emissions	Quarterly.	Target to reduce by 3% to 5% annually	2,923	2,468	2,024	2,080 (note 4)	373	716
Volume of paper consumed	Quarterly	Target being developed	Not measured	Not measured	Not measured	Not measured	Requesting from paper supplier	Requesting from paper supplier
Number of print copies (both mono and colour)	Quarterly	Target being developed	Not avail - changed reports in year	14.20M	10.67M	1.02M	0.32M	0.42M
Tonnes of waste generated	Quarterly	Target to reduce by 3% to 5% annually	367	422	225	134	61	39

Notes

- (1) Quarter 2 Days cash increased largely as a result of SAAS Annual fees receipt in Jan22 and movements in working capital due to COVID19 and the related restrictions
- (2) SFC grants higher in 2021/22 due to three one-off grants which affects this percentage in budget (3) As per 27 Sept 22 Portfolio on MIS
- (4) CO2 Emissions increased in 2020/21 due to a new metric for estimating the impact of Homeworking. The College has developed its reporting on emissions to put in place quarterly emission data reporting from 2021/22.

FINANCE AND RESOURCES COMMITTEE

Date of Meeting 5 October 2022

Paper Title College Strategic Risk Register

Action For Discussion

Prepared by J Thomson, Vice Principal Resources & College

Agenda Item Development

22.46

Status Disclosable

1 PURPOSE OF THE REPORT

1.1 This report considers the College's Strategic Risk Register which is updated regularly and reported to the Finance and Resources Committee and the Audit Committee and is submitted to the Board of Management on a quarterly basis. This report provides a new updated format of the College Strategic Risk Register following a review process as described in the paragraphs below.

2 ACTION FOR THE COMMITTEE

2.1 Members are invited to discuss this paper.

3 BRIEF BACKGROUND INFORMATION

3.1 The College's Strategic Risk Register as at 30th August is attached. The Strategic Risk Register is updated regularly and considered at least quarterly by College senior management.

4 SUPPORTING DOCUMENTATION/ FURTHER INFORMATION

- 4.1 In late 2021 the Audit Committee requested that the College have a workshop to consider the Risk Register approach and it was agreed to undertake a comprehensive review of the risks in the previous Risk Register.
- 4.2 A workshop was held early this year involving College senior managers and Board members. The workshop considered the key risks for the College in achieving its five Strategic Plan themes with a lead for each theme summarising the areas of key risk. For ease of reference the five themes of the Strategic Plan as approved by the Board of Management are as below:

Theme 1 – Inspirational Learning and Teaching

Theme 2 - Partner of Choice

Theme 3 – Unrivalled Student Experience

Cross Cutting Theme 1 – Employer of Choice Cross Cutting Theme 2 – Financial Resilience through Operational Excellence

- 4.3 After the workshop there were several further sessions with the theme leads, and the Principal and the Clerk to the Board to review the Risk Register. There was then a final session on 30th August including the Chair of the Board and the Chair of the Audit Committee.
- 4.4 Following this review period the updated version of the College Strategic Risk Register is attached which shows the final set of risks linked to the Strategic Plan themes and with updated mitigating actions.
- 4.5 There are thirteen risks in the updated Strategic Risk register of which three have a high residual risk score after mitigating actions, five have a medium residual risk score and five have a low residual risk score.
- 4.6 The three high risks in the College Strategic Risk Register are :

Risk 1 – Implications of national bargaining and possible negative impact on employee relations

This is a high risk given the potential financial impacts on the College, and the sector, of national bargaining and unfunded pay awards as well as employee relations and services risks if there is to be any disruption through industrial action.

Risk 2 - Failure to achieve SFC credits target and clawback of funding

The College (and many other Colleges) have not achieved their SFC credits target in each of 2020/21 and 2021/22 largely as an impact of COVID and effects on student retention. This is likely to remain a challenge and could also be impacted by the future financial landscape and ability to deliver support services.

Risk 3 – Failure to manage financial sustainability through period of financial plan

There are a range of impacts from the financial plan which will be challenging including pay awards and inflation issues against a backdrop of flat cash from SFC income. This is a significant risk as has been reported on to the Board of Management through many recent discussions. The three year financial forecast is currently being updated and will be presented to the next meeting of the Finance & Resources Committee and the Board of Management.

5 RISKS

- 5.1 The College Strategic Risk Register is a key part of the College's risk management framework.
- 5.2 The College is required to have a risk register as part of the Financial Memorandum and the risks cause and potential consequences are shown within the College Strategic Risk Register.
- 6 ANY OTHER SIGNIFICANT IMPACT e.g. STUDENT EXPERIENCE/ LEGAL / FINANCIAL/ EQUALITY& DIVERSITY
- 6.1 Each of the risks in the College Strategic Risk Register reflect the current assessment of the key areas of College activity across the risks in delivering the Strategic Plan which include student experience, legal, financial, and equality and diversity matters.

				1			1		1	1			$\overline{}$
			Risk Score Be	fore Mitigati	ing Actions		Risk Score Afte						
Risk Ref	Risk Description - Risk Cause	Potential Consequences	Probability	Impact	Risk Score	Mitigating Actions	Probability	Impact	Risk Score	Score compared to College risk appetite (see key above)	Link to Strategic Theme(s)	Risk Owner (to be agreed)	
1	Implications of national bargaining and possible negative impact on employee relations	Reputational risks Poor industrial relations Potential service disruption through removal of labour e.g. strikes, action short of strike Loss of goodwill		5 5	25	i) Engagement with national process. Representation made through College Employers Scotland, Colleges Scotland, Principals Forum, and GCRB, within national bargaining process. ii) Emphasis made on imperative of financial sustainability and affordability issues particularly given increased staffing costs and flat cash SFC funding. iii) Relationships locally to maintain and build communications on national negotiations. Focussed work with Trade Unions, specific and regular meetings with senior management, ensuring good flow of information, and ongoing communications on any national matters iv) Effective clear, consistent communications in College with unions and with wider stakeholders and related message management v) Ensure proper consultation and early engagement on any local changes vi) Business continuity planning used to ensure all stakeholders appropriately communicated with in any potential industrial action vii) Engage with awarding bodies on any potential service change		5	4 2	i Higher than risk appetite (Hungry)	Employer of choice Financial Resilience through Operational Excellence	Principal/ Assistant Principal HR	
2	Failure to achieve SFC credits target and clawback of funding	Reputational risk with SFC, GCRB Financial risk Not meeting needs of community and employers		5 5	5 25	i) Design and plan a curriculum that meets the needs of the community and attracts students ii) Deliver a curriculum portfolio that maximises SFC credits yield iii) Systematic monitoring of credits levels throughout the year iv) Efficient deployment of human and physical resources to deliver the curriculum and credits		4	4 1	As per Risk Appetite (Open)	3 - Unrivalled Student Experience 5 - Financial Resilience through Operational Excellence	Deputy Principal	
3	Failure to manage College financial sustainability through period of financial plan	Financial sustainability Inability to meet obligations and remain going concern Reputational risk Legal implications Not complying with SPFM Strained relationship with GCRB and SFC Pressures from national bargaining terms and conditions implications Implications for staffing		5 5	25	i) Revenue budget being prepared for 2022/23 and three year financial plan ii) Financial plans developed by College Senior Leadership Team and monitored within framework of available activity through Glasgow Regional funding for teaching, student support funds and capital. Portfolio planning key element of cost base and monitored on ongoing basis iii) Cost reduction plans continue to be implemented with reduction in staff levels and significant cuts in non-staff budgets across the College. First phases of VS Reductions and academic management restructure implemented. iv) Process of review of all areas to seek cost reductions, as well as seeking further efficiency through improved business processes. v) Successful bid to GCEF for additional funding support from November 2020 ongoing into 22/23.		4	4 1	6 As per Risk Appetite (Open)	5 - Financial Resilience through Operational Excellence	Principal/ Deputy Principal & Vice Principal	
4	High Impact Business Continuity incident for College e.g. cyber attack, pandemic, fire, long term power loss, power rationing	Business interruption Impact on ability to meet future obligations Impact on student outcomes Legal implications Data protection issues Potential loss of essential data		4 5	5 20	i) Health and safety risk assessments in place and required testing and audits completed on an annual cycle ii) Business Continuity Plan for College in place. iii) Business interruption insurance in place. iii) Business interruption insurance in place. iii) Many systems/services cloud based and using VPN/remote desktop for staff to access systems while home working. v) Infrastructure designed not to have single points of failure with all campuses operating a sophisticated dual-core network topology. vi) Member of HE/FE Shared Technology and Information Services (HEFESTIS) which provides support to secure against cyber attack and regula ICT network penetration testing undertaken by external bodies. vii) ICT backup procedures and Disaster Recovery planning. Cyber essentials-status maintained. viii) Fraud response plan in place	г	3	5 1	5 As per Risk Appetite (Open)	5 - Financial Resilience through Operational Excellence	Vice Principal - Resources & College Development	
5	Failure to achieve the College Climate Change Action Plan and carbon reduction targets	Environmental impacts Financial impacts Failure to meet needs of customer base through carbon training/ carbon literacy Reputational risk Stakeholder relationships	1	5 5	5 25	ii) College Climate Change Action Plan prepared and agreed by the Board iii) Carbon reduction target set over life of the climate change plan iii) College Climate Change group established and meets regularly iv) Clasgow Clyde College signed up to race to net zero pledge v) Carbon emissions data monitoring by campus on quarterly basis vi) Plans being developed to reduce utilities consumption through enhanced monitoring and targeted investment viii) Carbon literacy training for staff and students being developed viii) Plan to incorporate sustainability into wide range of College courses ix) Membership of Regional Green Team x) Annual Participation in Global Goals teach In		3	3		I - Inspirational Learning and Teaching 5 - Financial Resilience through Operational Excellence	Vice Principal Resources & College Development

FINANCE AND RESOURCES COMMITTEE MEETING

Agenda No 22.48

Status Disclosable

1 PURPOSE OF THE REPORT

1.1 The purpose of this report is to provide to the Committee an update on the Glasgow Clyde Education Foundation (GCEF) funded College projects as at end September 2022.

2 ACTION FOR THE COMMITTEE

2.1 Members are invited to **NOTE** this paper.

3 BRIEF BACKGROUND INFORMATION

- 3.1 The Glasgow Clyde Education Foundation (GCEF) is a separate independent charitable organisation from the College. The College can apply for funds to the Foundation providing they meet GCEF's charitable objectives and following full consideration by the Foundation Board of Trustees.
- 3.2 As at August 2021 there were five remaining approved GCEF funded projects from those previously considered by them as follows:-
 - 1) Cardonald Public Realm This project has approved funding of £652k for the redevelopment of the Cardonald campus to provide an upgraded environment for students and staff through improvements to the external areas of the campus. The project team commenced from January 2022 and the works are being undertaken in summer to autumn 2022 with the remaining part of the project awaiting street furniture delivery, final landscaping, and completion of the planned mural at the base of the Tower building.
 - 2) **Financial Sustainability Funding** This approved fund was for a total of £2.3M, which was agreed to be increased by GCEF to £2.4M to include the previous business transformation project remaining

funding and another small balance from the on line care courses project. Of this total funding £900k was utilised in 2020/21.

- 3) Business Transformation Funding now included in 2) above
- 4) DELTA Project (Delivering Excellence in Learning, Teaching & Assessment There was £188k of the funding for this project remaining at August 2021 and GCEF agreed to allocate a further £500k to the DELTA project to extend it over an additional 2 year period.
- 5) Supporting Commercial Income Growth There was £271k of GCEF funding remaining for this project from August 2021, and this is planned to be utilised in future years mainly for staffing to assist in the achievement of the commercial income plan. A restructure of the commercial and external funding team is underway with a revised focus in the structure into employer related commercial activities and into individuals' related training and funding activities.
- 3.3 The College continues to progress each of these projects and to provide monitoring information as required by GCEF.
- 3.4 In addition to the above projects there have been discussions with the Foundation on the College's intended Learning Spaces Project which is to invest in the refurbishment of internal areas on all three campuses to create high quality informal learning spaces. The current stage of planning and feasibility work has been noted by GCEF and they have agreed to fund up to a total of £2.3M by 2024 for this programme, subject to further reporting on the detailed proposals. The initial planning for this work is ongoing and it is intended to have the detail for these proposals during the next few months. There is a College Project Group for this and a number of site visits have been undertaken to other institutions. In addition the College Learning and Inspiration Committee considered the Learning Spaces project at a workshop in mid September with discussions on the purpose of the spaces and what success would look like, potential pedagogy changes which could be made possible, consideration of type and size of space that may be involved and discussion on the technology impacts. Further discussions are planned with wider staff groups over coming months to further inform the plans for the spaces.

4 SUPPORTING DOCUMENTATION/FURTHER INFORMATION

N/A

- 5 RISKS
- 5.1 There are no specific risk implications associated with this paper.
- 6 ANY OTHER SIGNIFICANT IMPACT e.g. STUDENT EXPERIENCE/LEGAL/EQULAITY AND DIVERSITY
- 6.1 GCEF is a separate charitable organisation and hence is a separate legal entity. The financial implications of each project are indicated above. All GCEF funded projects will be progressed to enhance the student experience where possible, and take account of any equality and diversity matters.

FINANCE AND RESOURCES COMMITTEE MEETING

Date of Meeting 5 October 2022

Paper Title Audit Scotland Report: Scotland's Colleges 2022

Agenda Item 22.49
Paper Number 22.49A

Responsible Officer | Janet Thomson, Vice Principal – Resources and College

Development

Status Disclosable
Action For Noting

1 REPORT PURPOSE

1.1 The purpose of this report is to submit to Committee the recent Audit Scotland report which was published in July 2022 and provides an overview of the Scottish Colleges based on submitted financial information including financial statements and forecasts.

2 **RECOMMENDATION**

2.1 Committee Members are invited to NOTE this paper.

3 BACKGROUND

- 3.1 Audit Scotland prepare an annual review report on the Scottish College sector based on the financial statements of Colleges and any associated information they have available to them. The most recent report was published in July 2022 based on the 2020/21 financial statements and a copy of this report is attached.
- 3.2 The main points highlighted in the Audit Scotland Report for Colleges and summarised on page 2 of the report are as follows:
 - i COVID funding contributed to the College sector reporting a healthier than expected financial position for 2020/21. This position is forecast however to deteriorate from 2021/22 and for future years;
 - ii There was a necessary move to online learning through COVID however the success rates of students have fallen which had a bigger proportionate impact on students who are socially disadvantaged or vulnerable; and
 - iii The report states that change is needed to ensure more students are successful and that the College sector is financially sustainable in the

long term. It references the recommendations made by SFC and that the Scottish Government is due to set out the future role of the College and university sectors in 2023.

- 3.3 In addition to the above, the main points highlighted in the report for College Boards and regional bodies are as follows:
 - Colleges are increasingly reliant on public funding
 - Challenges of maintaining financial sustainability with the indication in the report that based on the information available to them over half of Colleges are likely to consider reductions in staff;
 - Effects on student outcomes from the move to on line learning and fewer positive student destinations
 - Climate change priorities will require greater capital investment
 - The pace of reform in multi College regions needs to quicken

4 RISK ANALYSIS

- 4.1 There are financial risks associated with the cost of national bargaining and other cost pressures which are reflected in the College's financial plans.
- 5 LEGAL IMPLICATIONS/FINANCIAL IMPLICATIONS/ REGIONAL OUTCOME AGREEMENT IMPLICATIONS
- 5.1 The College needs to comply with the legislative and financial frameworks as referred to by Audit Scotland.
- 6 HAS AN EQUALITY IMPACT ASSESSMENT BEEN CARRIED OUT

N/A

Scotland's colleges 2022

Key messages

- 1 Covid-19 funding contributed to the college sector reporting a healthier than expected financial position in 2020-21. This is forecast to change for the current and next academic years. It will be difficult for Scotland's colleges to balance the delivery of high-quality learning at the volume currently expected and to contribute to other Scottish Government priorities while remaining financially sustainable.
- 2 Colleges have continued to deliver learning in unprecedented circumstances and responded well to the shift to online learning during the Covid-19 pandemic. However, the proportion of students successfully completing their course and achieving their intended qualification has fallen. And on average, socially disadvantaged and vulnerable students were less likely to successfully complete their course than their peers. High rates of student withdrawals may affect the life chances of individual students, impact on wider society, and risk not maximising public investment in the college sector.
- 3 Change is needed to ensure more students are successful and that the college sector is financially sustainable in the long term. Wide-ranging recommendations for change made by the Scottish Funding Council (SFC) in 2021 need to be implemented at the earliest opportunity. The Scottish Government is due to set out the future role of the college and university sectors in 2023, but it is important that the Scottish Government and the SFC support colleges to plan for change now to make best use of available funding.

Scotland's colleges 2022 [2]

Scotland's colleges

Scotland has 27 colleges across 13 regions

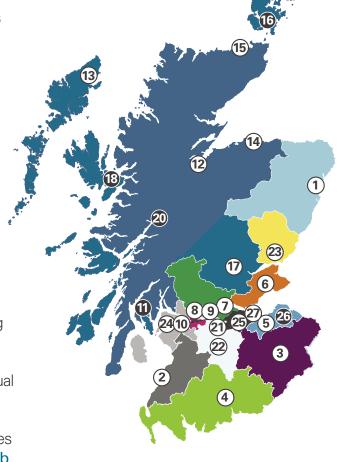

The map shows Scotland's 20 incorporated colleges and six smaller, non-incorporated colleges (in bold). Scotland's Rural College (SRUC) is classed as a higher education institution but counts towards the achievement of the national target for colleges.

Incorporated colleges are classified as public bodies and are subject to audit by the Auditor General for Scotland.

Scotland's colleges offer academic and vocational courses to develop skills and knowledge for work, continued study or general interest. Students can choose to study full-time, day release, evening, block release or on an open learning basis.

Colleges provide both further education (FE) courses – qualifications at <u>Scottish Credit and</u> <u>Qualifications Framework</u> level 6 and below – and higher education (HE) courses, including Higher National Certificates and Higher National Diplomas.

The Scottish Government sets national policies for learning and provides funding to the Scottish Funding Council (SFC), which is responsible for strategic investment in colleges and universities. The SFC allocates grant funding to college regions and individual colleges not part of a region, and holds them to account for what they deliver. Figures in this report relate to all 27 colleges. Data for the individual colleges is available on Audit Scotland's learner journey eHub.

Scotland's colleges 2022 3

Covid-19 funding contributed to a healthier than expected financial position in 2020-21

This is forecast to deteriorate in the current and next academic years, meaning colleges face difficult decisions to ensure they remain financially sustainable

£792 million

2.3% increase from 2019-20 Real terms: No change

Expenditure 2020-21 **£840** million

1.4% increase from 2019-20 Real terms: 0.9% decrease

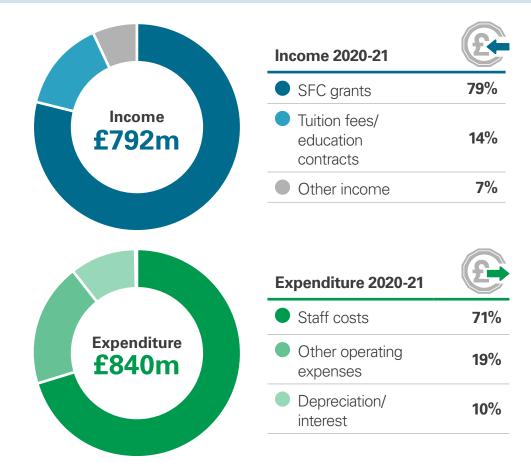

Operating position 2020-21 **£47 million deficit**

£7m decrease from 2019-20

Adjusted operating position 2020-21 **£20 million surplus**

£16m increase from 2019-20

Three colleges reported an adjusted operating (AOP) deficit in 2020-21. 12 colleges are forecasting AOP deficits in both 2021-22 and 2022-23, reducing to nine colleges in 2023-24.

Source: College annual accounts, 2020-21 and Financial sustainability of colleges and universities in Scotland, SFC, March 2022

Scotland's colleges 2022 4

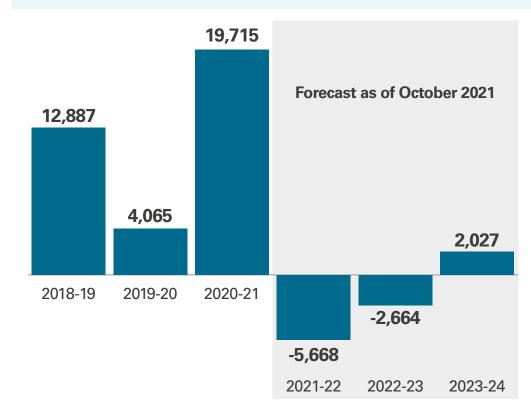

Scotland's colleges are increasingly reliant on public funding

- **1.** In 2020-21, the <u>Scottish Funding Council</u> (SFC) provided the college sector with an additional £15 million Covid-related grant. As colleges are not wholly publicly funded, they were eligible to apply for the UK Government's Coronavirus Job Retention Scheme (CJRS). They received £9.9 million of CJRS funding in 2020-21. This resulted in a healthier than expected financial position in 2020-21 and reversed the trend of a growing operating deficit across the sector.
- **2.** In contrast to colleges' increased grant funding, other income fell by £9.5 million/14 per cent (£11 million/16 per cent in real terms) mainly due to the loss of commercial income. As a result, incorporated colleges are increasingly reliant on SFC grants. In 2020-21, 79 per cent of colleges' income was from SFC grants, compared to just under 75 per cent in 2017-18.
- **3.** As public bodies, incorporated colleges are not permitted to retain reserves. At college reorganisation in April 2014, they transferred any reserves to charitable arm's length foundations (ALFs). Colleges can apply to ALFs for funding for capital and revenue projects and can transfer any surplus to an ALF. Over time ALFs have become a reducing source of income, with most colleges having little or no access to ALF funding. In 2020-21, almost £19 million was held across 14 ALFs. Almost 90 per cent of this was concentrated in five ALFs and almost two-thirds (£12 million) within ALFs of the three Glasgow colleges.

Colleges' financial position is forecast to deteriorate

4. Despite the relatively positive picture for 2020-21, the sector's financial position is forecast to deteriorate. Colleges' latest financial forecasts, from October 2021, predict an adjusted operating deficit for the whole sector in the current and next academic years (Exhibit 1).

Exhibit 1.Adjusted operating position, 2018-19 to 2023-24 (£000)

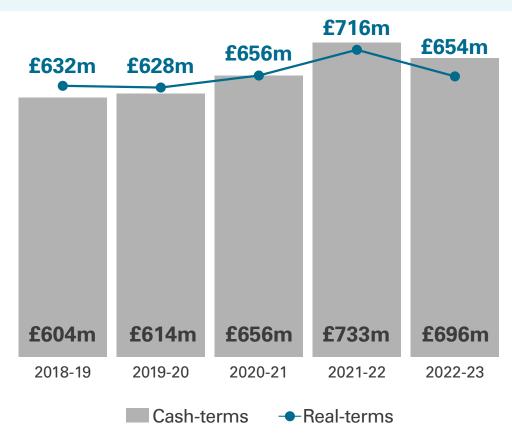

Source: Financial sustainability of colleges and universities in Scotland, SFC, March 2022

5. College sector funding for the upcoming academic year 2022-23 has fallen considerably, down five per cent to £696 million compared with the current academic year (a fall of nine per cent to £654 million in real terms) (Exhibit 2). Reductions in funding are exacerbated by inflationary pressures and rising costs, putting further stresses on college finances. Colleges spend around 70 per cent of their overall budget on staffing and this is increasing, with increases in employer pension contributions and cost of living pay awards driving up staff costs.

Colleges face difficult decisions to achieve financial sustainability

- **6.** Colleges face a challenge in balancing the delivery of high-quality learning at the volume currently expected with the financial decisions required to remain financially sustainable in the longer term. To balance their budgets, incorporated colleges are striving to increase non-SFC income and reduce costs. Auditors found that around half are considering or likely to consider reducing staff in 2021-22 to deliver savings. This has potential implications for the delivery of learning, student outcomes and the experience of remaining staff. It also heightens the risk of further industrial action within the sector
- 7. In the context of growing financial challenges and uncertainties, medium-term financial planning based on as much information as possible is more important than ever. In May 2022, the Scottish Government announced its multi-year spending plans up to 2026/27. This shows a flat cash settlement for the SFC over the next four years, equating to an eight per cent reduction in real terms. The multi-year plan confirms that the college sector faces some really challenging years to come.

Exhibit 2. SFC revenue funding for colleges

Source: College funding allocations, SFC, 2018 to 2022

10,849 staff (FTE)

50.8% teaching staff | 49.2% support staff Staff numbers fell by 132 (1.2%) in 2020-21

College Staffing Data 2020-21, SFC, March 2022

80

The pandemic has had a detrimental impact on learning and student outcomes

The impact has varied across different groups of students, exacerbating existing inequalities

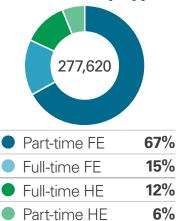

213,135 students (117,914 FTE)

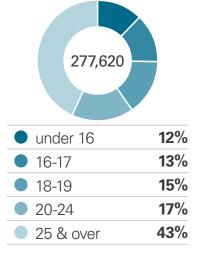

who account for 277,620 enrolments on courses

FTE student numbers remain above the Scottish Government's longstanding target of 116,269 FTE. The number of enrolments has continued to fall since peaking at 328,889 in 2018-19.

Students by type

Students by age

1.730.519 credits

The amount of learning delivered by the sector (measured in credits) has continued to fall since 2017-18. In 2020-21 it was 2% below SFC's national target.

Successful course completion

FE Students: 61.3% full-time | 76.3% part-time HE Students: 72.1% full-time | 81.3% part-time successfully completed their course.

Student withdrawals

Full-time students: 27.7% FE | 17.7% HE failed to complete their courses.

Withdrawal rates increased in 2020-21 by 6.9 percentage points and 2.8 percentage points respectively from 2019-20.

Student satisfaction

Full-time students: 88.6% FE | 80.3% HE

Student satisfaction is lower than before the Covid-19 pandemic but remains relatively high.

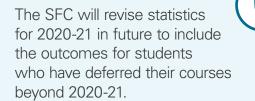

Source: SFC's <u>Infact database</u> and reports: <u>College Performance Indicators 2020-21</u> (April 2022); <u>College Statistics 2020-21</u> (January 2022); <u>Student Satisfaction and Engagement Survey 2020-21</u> (November 2021); and <u>College Leaver Destinations 2019-20</u> (October 2021)

Scotland's colleges 2022 [7]

Student outcomes

Figures on students and learning are for 2020-21. In both 2019-20 and 2020-21, some, mainly practical, courses could not be completed due to Covid-19 restrictions and more students deferred their courses.

Rates for students successfully completing their course and achieving a qualification in 2020-21 do not include 13,074 full-time and part-time students who had deferred at least one of their college courses.

Due to alterations to exam and assessment arrangements during the Covid-19 pandemic, it is not possible to directly compare student success in 2019-20 and 2020-21 with previous years to examine a longer-term trend.

Fewer students successfully completed their course and achieved a qualification

8. Before the pandemic, around one in four full-time further education (FF) students (24.7 per cent) failed to complete their college course. The proportion of students withdrawing from courses fell in 2019-20, to around one in five full-time FE students (20.8 per cent). Withdrawal rates increased noticeably in 2020-21 (to 27.7 per cent), with fewer full-time FE students successfully completing their course and achieving their intended qualification than before the pandemic. The destination of students not successfully completing their courses is not monitored, but the pathways they take and the impact on their life chances will vary. For example, some students may leave college early to enter employment, others may decide to pursue further education elsewhere,

and others may face unemployment. High rates of student withdrawals present a risk to the life chances of individual students and also to value for money, if public investment in colleges is not maximising the potential benefits for students or society more widely.

9. The reasons behind students not completing college courses will be wide and varied. Surveys by NUS Scotland and the Scottish Government of college and university students suggest that student poverty could be a contributing factor. The NUS has stated that around two-thirds of students have experienced mental ill health as a result of financial pressures and a third have considered dropping out of their course due to financial difficulties. Many colleges have highlighted that they are actively working to better support students in addressing poverty and mental health challenges (Case study 1).

Case study 1. College support for students

Food poverty

Several colleges provide free hot breakfasts and/or lunches to students. This provides an incentive for students to attend college, ensures that no one goes through the day hungry and helps with student mental health and wellbeing.

Mental health support

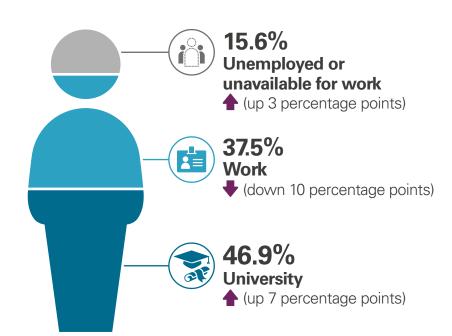

Most colleges introduced or expanded their mental health support for both students and staff during the Covid-19 pandemic. New developments introduced by colleges include an in-house mental health service and mental health counsellors; compulsory mental health training for managers; and specific spaces created for staff and students to allow quiet contemplation or to talk about issues affecting their mental health.

Scotland's colleges 2022 8

Fewer college leavers went on to a positive destination after leaving college

10. In 2019-20, 84.4 per cent of full-time college leavers went on to positive destinations (down 3.4 percentage points from 2018-19) (Exhibit 3). For FE students, 74.5 per cent moved into a positive destination, compared to 90.3 per cent of HE college leavers. Fewer college leavers went into work but more went to university.

Exhibit 3.College leaver destinations

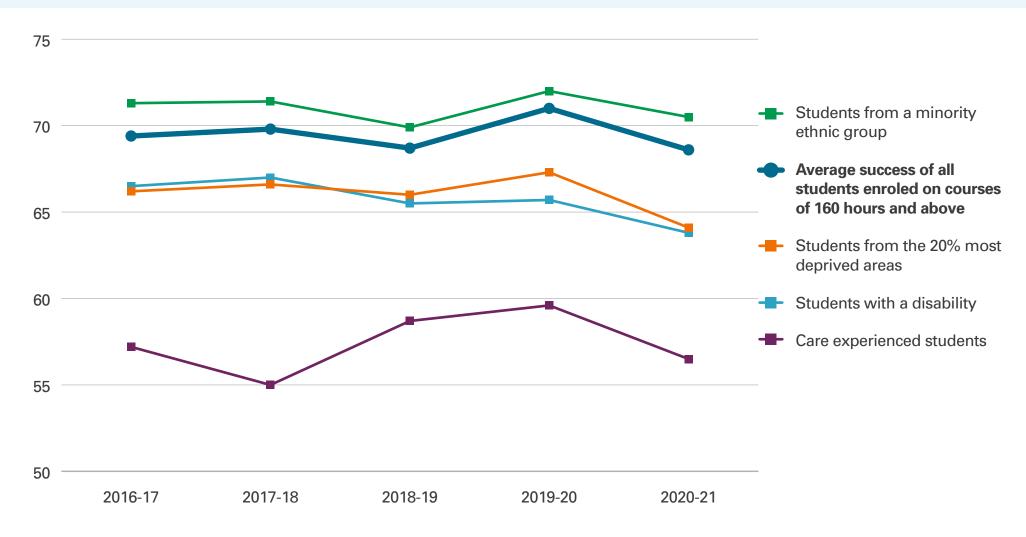

Source: College Leaver Destinations 2019-20, SFC, October 2021

Covid exacerbated existing inequalities among students

- 11. On average, just over two-thirds of students (68.6 per cent) successfully completed their course in 2020-21 (Exhibit 4, page 10). In comparison, just over half (56.5 per cent) of students who have been in care, and less than two-thirds of students from the most deprived background (64.1 per cent) or with a disability (63.8 per cent) successfully completed their course. The SFC highlights that these students are also less likely to go on to a positive destination than their peers after leaving college.
- 12. The Commissioner for Fair Access has highlighted that students from the most deprived backgrounds have been hardest hit by the impact of the Covid-19 pandemic, experiencing digital poverty, financial hardship and worse mental health. Acknowledging that progress towards fair access continued in 2020-21, the Commissioner warned that the full impact of disrupted learning due to the pandemic may become apparent in future years and the cost-of-living crisis will affect those who are disadvantaged hardest. The Scottish Government has also reported that the disruption to learning during the pandemic is likely to have adversely affected the most socially disadvantaged and vulnerable students. It also had a significant impact on those studying vocational and practical courses, with a potential knock-on effect on the pipeline of skills needed in the economy.
- **13.** The SFC and colleges are committed to widening access to learning and to tackling all forms of inequality and promoting diversity among students. Colleges are demonstrating this commitment in some positive practical ways (Case study 2, page 11).

Scotland's colleges 2022 9

Exhibit 4.
Success rates (the proportion of students successfully completing their course) by characteristic group

Case study 2. College initiatives to support inclusion

Rockpool podcasts - Ayrshire College

Rockpool Podcasts started during the period of Covid-19 restrictions to give music and sound production students a creative outlet in a blended learning environment. The podcasts feature a mix of interviews, special guests, stand-alone episodes and themed episodes. They have provided a platform to discuss several equality related issues, such as race, LGBT+ inclusion, mental health, women's rights and gender-based violence. The college reports that the podcasts are helping to mainstream equality, diversity and inclusiveness throughout the college community and beyond. They have around 1,300 listeners per week and are reaching audiences in 36 countries.

Listen to Rockpool podcasts

Neurodiversity in cybersecurity project – Fife College

The Neurodiversity in cybersecurity project was developed in response to Skills Development Scotland identifying a gap in support for neurodivergent students. Evidence suggests that people who are neurodivergent, in particular those with autism, are likely to have the aptitudes needed for cybersecurity roles. A fund was created to help run a short course on digital forensics and protecting computer systems and networks from information disclosure. The course was delivered by Fife College lecturers to a group of S3 pupils from Levenmouth Academy. The project also included the creation of an awareness training module with support from Autism Network Scotland. The college plans to extend it to other schools across Fife.

Remote learning presented benefits and challenges for college staff and students

14. A significant feature of the Covid-19 pandemic was a shift to online learning. In June 2021, Her Majesty's (HM) Inspectors from Education Scotland reported that Scotland's colleges developed remote learning well and at pace' and in a number of practical ways. The Scottish Government reported that remote learning brought a number of benefits, including flexibility for students in when, where and how frequently they accessed learning. Education Scotland's HM Inspectors highlight that remote learning has benefited learners who manage other responsibilities alongside their studies, such as caring for others, home schooling or work commitments. A SFC survey shows that students were fairly satisfied with online resources and communication about changes to their courses during the pandemic.

15. Remote learning also brought numerous challenges to college staff and students. For colleges, this included guickly providing digital equipment and access, developing digital skills, assessing the quality of remote learning, and supporting the wellbeing and mental health of staff and learners from a distance. Education Scotland's HM Inspectors found that digital poverty (including lack of access to IT equipment, the internet or a quiet space to work) and poor connectivity impacted on some learners' ability to engage with remote learning. Younger learners and students with additional support needs or poor mental health found engaging in remote learning challenging. This has been particularly evident in programmes that consist of large elements of practical work. Colleges report that remote learning was most effective in theory-based subjects and at an advanced level, and that overall learner engagement has been less positive on FE programmes in comparison to HE courses. Reduced face-to-face learning also impacted on opportunities for students to develop essential social skills. Over the past two academic years, the SFC has provided colleges with £5.7 million of dedicated funding to tackle digital poverty and support digital learning. It is providing a further £2.9 million in 2022-23.

Scotland's colleges 2022 | 11 |

Change is needed within the college sector to improve outcomes and financial sustainability

The college sector needs clear strategic direction for the short and longer term

Wide-ranging recommendations for change need to be implemented at the earliest opportunity

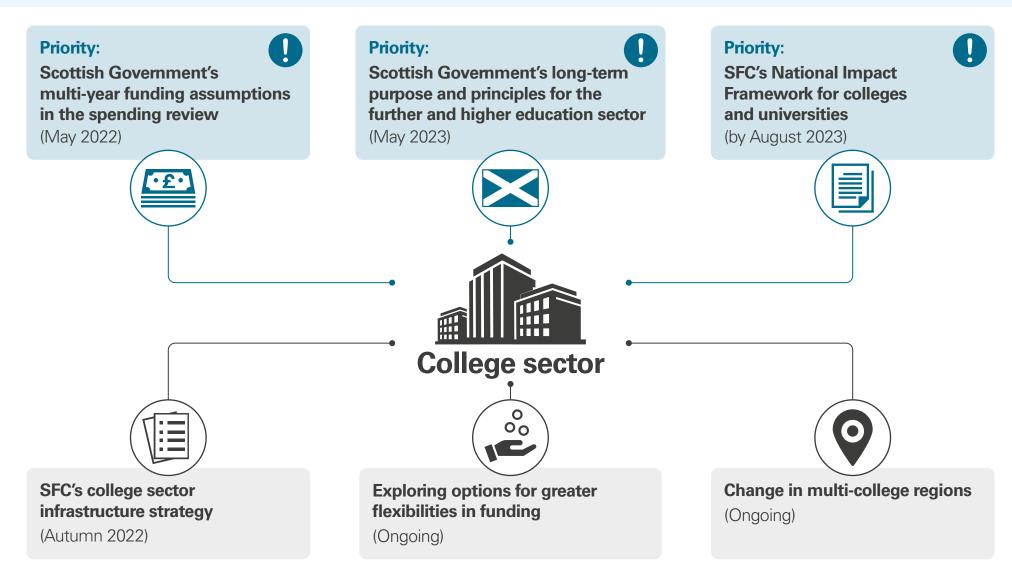

- **16.** As we have reported in previous years, colleges were facing a number of challenges prior to the Covid-19 pandemic. These included ensuring long-term financial sustainability, reducing the proportion of students who do not complete their courses, increasing student success and closing the attainment gap for more disadvantaged students. Responding to these challenges, while continuing to deliver high-quality learning and contributing effectively to the delivery of wider Scottish Government priorities, may prove even more difficult in a post-Covid environment with increasingly challenging financial settlements for colleges.
- 17. In June 2020, in response to the Covid-19 pandemic, the Scottish Government commissioned the SFC to carry out a review of the provision and sustainability of further and higher education and research across Scotland (the SFC review). The SFC's final report from this review, published in June 2021, is wide-ranging and includes over 50 recommendations aimed at securing coherent, good-quality, sustainable tertiary education and research. In October 2021, the Scottish Government broadly accepted the SFC's recommendations.

- **18.** The Scottish Government and the SFC are starting to take forward the recommendations in the SFC review. They have prioritised a range of work, including publishing multi-year funding assumptions, setting out the future role for the college, university, skills and research system (known as the 'purpose and principles') and developing a new National Impact Framework, which is intended to clarify the outcomes expected from colleges and universities and how they will be assessed (Exhibit 5, page 13).
- 19. It is critical that changes in the college sector address the immediate financial sustainability challenges facing colleges and maximise opportunities for students. The recommendations from the SFC review need to be implemented at the earliest opportunity. It is important that the Scottish Government and the SFC consider how best to support colleges to prepare and plan for change now, ahead of the longer-term role of the sector being set out in 2023. This should include supporting colleges to develop realistic medium-term financial plans and forecasts to help mitigate immediate risks to their financial sustainability.

Scotland's colleges 2022 | 12 |

Exhibit 5.

The college sector is facing a period of change

Source: Audit Scotland

The Scottish Government and the SFC need to provide clarity to support long-term plans for improvement

20. To support colleges in planning for and implementing proposed changes over the longer term, the Scottish Government and the SFC need to clarify expectations and priorities for the sector for the medium and long term, and the funding available to deliver them. In doing this, it will be important for:

- the Scottish Government's 'purpose and principles' and the SFC's National Impact Framework to set out clear and consistent expectations for the sector. These should reflect relevant objectives and outcomes in the National Performance Framework and other national strategies and plans (such as addressing inequality and disadvantage, developing a skilled workforce and securing a just transition to carbon net zero, which are priorities in the National Strategy for Economic Transformation).
- the SFC, in partnership with the college sector and Scottish Government, to determine the most appropriate model for funding colleges, and the targets underpinning it, that will allow colleges to deliver national policies and priorities and contribute to their long-term financial sustainability.
- the Scottish Government and the SFC to determine the evidence needed to demonstrate how the implementation of specific changes will contribute to a more sustainable college sector and improved outcomes for students and the economy, and the SFC to ensure information is available to monitor and measure performance and progress.
- the Scottish Government and the SFC to ensure that any future changes to governance, accountability, roles and responsibilities are clear and fully understood by key stakeholders.

Scotland's colleges 2022 | 14 |

Climate change priorities will require greater capital investment

- 21. Capital funding from the Scottish Government/SFC has consistently fallen short of the level needed for both regular lifecycle maintenance of the college estate and to address the level of backlog maintenance identified in a SFC condition survey in 2017 (Exhibit 6, page 16). As such, maintenance needs have grown over time and pose a risk to colleges' ability to maintain the suitability and safety of their buildings. The Scottish Government did not announce any additional capital funding in its multi-year spending review in May 2022.
- **22.** In <u>Scotland's Colleges 2019</u> we recommended that the SFC and Scottish Government agree and publish a medium-term capital investment strategy that sets out sector-wide priorities. Progress in developing an infrastructure strategy for the sector has been impacted by the Covid-19 pandemic and remains slow, but it is due for publication in autumn 2022. It is important that the strategy recognises the role of colleges in responding to climate change.
- **23.** In February 2021, the college sector published its <u>commitment to</u> <u>tackling the climate emergency</u>, including an ambition to achieve net zero by 2040, five years earlier than the national target of 2045. Individual colleges are taking a range of actions to reduce their environmental impact, but achieving net zero will require large and sustained capital investment in the sector over time (Case study 3).

Case study 3. College activity to tackle climate change

Renewable training centres

In June 2021, nine new Renewable and Energy
Efficiency Training Centres for Scotland were
launched within Scotland's colleges. These are
funded by Scottish Power Energy Networks'
£20 million Green Economy Fund. Relevant colleges will
be at the forefront of training and upskilling for the future
renewables and energy efficiency workforce in Scotland to
accelerate the just transition to carbon net zero by 2045.

Climate action roadmap for colleges

The Climate Commission for UK Higher and Further Education developed a <u>road map</u> to help colleges reach the net zero target. The road map is intended to be used by college principals and their leadership teams, students, and other members of the college community to explain their approach to reaching net zero emissions.

Scotland's colleges 2022 | 16 |

The pace of reform in multi-college regions needs to quicken

24. In Scotland's colleges 2018 we recommended that the Scottish Government and the SFC assess and report publicly on the extent to which the regional strategic boards (RSBs) are meeting the aims of regionalisation in multi-college regions. The SFC reviewed the three multi-college RSBs and in October 2020 **recommended** that the Lanarkshire Board be dissolved, Glasgow consider other organisational options, and the University of the Highlands and Islands (UHI) consider consolidation and possible mergers. In October 2021, the **Scottish Government** endorsed these recommendations. Almost two years since the SFC made its recommendations, changes are still to be implemented. To date:

- The intention remains to dissolve the Lanarkshire RSB, with both colleges managing themselves as separate regional entities.
 A timetable for this is still to be agreed.
- Three colleges assigned to UHI Lews Castle College and North Highland College (both incorporated) and West Highland College (non-incorporated) – are considering a merger (from 2023 at the earliest). Several other larger colleges in the UHI region are facing significant financial challenges, which this proposed merger will not address. Wider-ranging changes to the regional college structure may be needed to address the financial risks facing the other incorporated colleges.
- Glasgow Colleges' Regional Board (GCRB) and its three assigned colleges are exploring other organisational options but are finding it difficult to reach agreement on a way forward. GCRB needs to address this with a sense of urgency.

25. The significant challenges presented by the Covid-19 pandemic have inevitably impacted on progress towards implementing the SFC's recommendations for multi-college regions. RSBs now need to return to addressing these recommendations with a sense of urgency. The current inquiry by the Scottish Parliament's **Education, Children and Young People Committee** into what has been learned from college regionalisation will be an important source of evidence to help inform future change.

We will continue to monitor changes in the college sector

26. We report annually on the audits of Scotland's 20 incorporated colleges and will continue to monitor developments across the college sector. Given the range and timing of proposed changes in the sector, we will consider the most appropriate point to report on their impact on the sector.

Scotland's colleges 2022
